

Epic Glow Vintage Tradition® Tallow Balm with Green Pasture Oils, 2 fl. oz. (59 ml)

This is the only all-animal-oil skin care product available anywhere. Before the petroleum and chemically fractionated plant products that we use on our skin now, people used animal oils on their skin, like tallow and fish oils, to keep it healthy and looking great. We're bringing that back with this amazing skin balm! We teamed up with Vintage Tradition®, who was already making the most effective and purest skin care products on the market, by adding our extremely therapeutic cod liver, skate liver, and butter oils. Our animal-oil ingredients contain abundant natural fat-soluble vitamins (A, D, E, and K) and fat-soluble activators, which are found only in animal fats and which all promote skin health. No petroleum- or plant-based skincare ingredient or product can remotely compare to them in their power to nourish and heal the skin. This fact is not surprising since we are animals and not plants. Our body knows best how to care for our skin, and it produces its own skin care product called sebum. Because of the tallow and Green Pasture oils in our balm, it has the same saturated fats (triglycerides) and squalene that make up the majority of our own sebum. There is no other skin care product that so closely resembles human sebum and can give you the healthy, great-looking skin you're looking for. All of these factors make *Epic Glow* Vintage Tradition Tallow Balm with Green Pasture Oils the best skin care product for whatever is ailing your skin, whether you are a woman or a man!

Epic Glow's aroma is mellow and lightly fragranced for a soft, comforting aura. The essential oils not only make the balm smell great and effectively neutralize the scent of the highly therapeutic tallow and fish oils, but they also stimulate the collagen to make the skin glow as well as aid the pores to relax.

Ingredients:

Tallow from 100% grass-fed cows.

Green Pasture oils (Blue Ice™ Fermented Cod Liver Oil, Blue Ice™ Fermented Skate Liver Oil, X-Factor™ Gold Concentrated Butter Oil).

Therapeutic-grade essential oils: jade lemon, tangerine, marjoram, lavender, manuka, myrrh, mastrante. That's it!

The Whole Food of Skin Care

Whole-body skin care for face, lips, hands, feet, and body.

Soft, spreadable, and easy to use.

For healthy skin. For great-looking skin. For all manner of skin conditions.

A little goes a long way, so a jar lasts an incredibly long time.

Does not result in a greasy look or feel because it is readily absorbed by the skin.

Paleo-friendly skin care.

The purest, most natural ingredients of any skincare product.

Directions:

A little goes a long way. Rub in well. Keep at room temperature. Keep tightly capped.

More information:

This balm is chemical-free and GMO-free with nothing unnatural and has only three whole-food ingredients, all selected from the finest sources to insure its superior therapeutic quality:

- 1) Tallow from 100% grass-fed cows that are happy, healthy, and humanely raised without cruel feed lots and cruel slaughterhouses and without pesticides, drugs, hormones, or chemicals of any kind.
- 2) Highest quality Green Pasture oils, including Blue Ice™ Fermented Cod Liver Oil, Blue Ice™ Fermented Skate Liver Oil, and X-Factor™ Gold Concentrated Butter Oil.

3) The most pure and therapeutic essential oils available, produced to the highest standards in the industry, steam-distilled from plants grown at the highest standards and not adulterated, extended, synthesized, or distilled using chemicals or high temperatures and pressure; expertly blended and specifically selected because of their long-standing tradition of supporting skin health.

This is how people cared for their skin before chemicals. This is the whole food of skin care. Don't put anything on your body that you wouldn't put in your body! There is nothing else like it on the market. If other skin care products have failed you, you owe it to yourself to try Vintage Tradition Tallow Balm with Green Pasture Oils!

Our balms are handcrafted in Colorado Springs, Colorado, USA.
During production, our balm does not come into contact with plastic, aluminum, or non-stick surfaces.
